INFORMATION RELEASE

December 1, 2021

Boosters widely available in Juneau for anyone ages 18 and up

The Centers for Disease Control and Prevention has strengthened its recommendation on COVID-19 vaccine booster doses for individuals who are 18 years and older. Everyone ages 18 and older should get a booster shot 6 months after their initial Pfizer or Moderna series, or 2 months after their initial Johnson & Johnson vaccine.

“The recent emergence of the Omicron variant (B.1.1.529) further emphasizes the importance of vaccination, boosters, and prevention efforts needed to protect against COVID-19,” CDC Director Dr. Rochelle Walensky said in a [November 29 media statement](#).

Booster doses can be Pfizer, Moderna, or Johnson & Johnson regardless of which vaccine you initially received, and are widely available in Juneau. As of December 1, here are details for COVID-19 vaccine/booster providers in Juneau:
